

Please acknowledge that this scale is based on the Meta Scale System a metascale template for scaling complex phenomena developed from Proba # 30 by Charles Scamahorn - 2006/11/01 - MetaScales/Happiness/Happiness.cdr probaway.com

Happiness is a belief that a hoped-for state of affairs is coming into existence. Pleasure is limited to the feelings of the moment. Contentment is the feeling that a hoped for state actually exists. Unhappy reactions to being blocked from an activity are the best measure of a persons true goals. It matters little where you came from but greatly where you now choose to go and what you choose to do.

Seconds of action at HAPS	Unhappy Face Drawing	Scalable graphic symbol	Common group and action term / Starting .Age	Unique standard name	Quality of the happiness sought by the person.
